Eight years of immediate technical assistance activities strengthening emergency preparedness for HPAI in Viet Nam Food and Agriculture Organization of the United Nations, The history of the battle to control HPAI in Viet Nam is relatively short but within the past 10 years there have been many insights developed, as well as some twists and turns in the road to the current level of success. As the concerted HPAI effort supported by FAO is coming to an end, albeit to be adapted into a broader One Health approach to animal health and zoonotic diseases, it was considered timely that a retrospective overview of the programme be produced to capture key elements and lessons that have arisen. A key adjunct for this retrospective is the FAO document 'Lessons from HPAI technical stocktaking of outputs, outcomes, best practices and lessons learned from the fight against highly pathogenic avian influenza in Asia 2005-2011'. Consistent with that stocktake, this retrospective on the HPAI control effort in Viet Nam does not attempt to be a comprehensive compilation of all the outputs and outcomes from the HPAI programme, but is rather a synopsis that captures the key experiences and challenges faced in Viet Nam in addressing this complex disease problem, concentrating on the USAID inputs but also with reference to other project areas as appropriate. This document examines the HPAI situation in Viet Nam at several points during the last 8 years through the prism of activities and outcomes in key areas such as coordination, surveillance, laboratory services, vaccination, biosecurity, socio-economics and communications and advocacy.

*Collective Leadership and Factionalism* Quang Trung Thai, 1985 This essay goes beyond the legend of Ho Chi Minh and his disciples. Behind the facade of unity, the Vietnamese communist leadership has for years been torn by a prolonged crisis, sustained by two major ideological factions and later amplified by the development of the Sino-Soviet rift. Ho Chi Minh was far from being a dictator the calibre of Tito, for example. Rather, his style of collective leadership has contributed to the institutionalization of factionalism in Hanoi. His policy of equidistance between Moscow and Beijing became more or less a necessity for the leadership's unity. This book addresses itself to the question: Did Ho Chi Minh leave behind a unified party? The book provides an understanding of one of the most enigmatic - and the most long-lasting - leaderships in the communist annals, and examines the current state of the Hanoi regime.

*The My Lai Massacre in American History and Memory* Kendrick Oliver,2006 This book examines the response of American society to the My Lai massacre and its ambiguous place in American national memory. The author argues that the massacre revelations left many Americans untroubled. It was only when the soldiers most immediately responsible came to be tried that opposition to the conflict grew, for these prosecutions were regarded by supporters of the war as evidence that the national leaders no longer had the will to do what was necessary to win.

**Việt Nam Exposé** Gisèle Luce Bousquet,Pierre Brocheux,2002 A collection of essays written on twentieth-century Vietnamese society, Vit Nam Expos is one of only a handful of books written by French scholars for an English-speaking audience. The volume is multidisciplinary and represents a new trend in Vietnamese studies that addresses issues beyond politics, wars, and violence, exploring the complexity of more subtle power relationships in Vietnamese society. The book is divided into three parts. Part I, Vietnamese Society in the Early Twentieth Century, takes a micro approach to the study of Vietnamese society on the eve of the irreversible social transformation that occurred as the colonial infrastructure took root in Indochina. Part II, Vietnamese Intellectuals: Contesting Colonial Power, contains biographical accounts of Vietnamese intellectuals who tried to reform their society under colonial domination. Part III, Post-Colonial Vietnam: From Welfare State to Market-Oriented Economy, traces Vietnam's search for a viable economic model while maintaining itself as a socialist state. The book speaks to diverse themes, including the nature of village life, the development of health care during the colonial era, the status of women, the role of Vietnamese intellectuals in the anticolonial struggle, the building of a socialist state, contemporary rural migration, labor relations, and Vietnam in an age of globalization. Gisele Bousquet is Research Associate at the Center for Southeast Asian Studies, University of California, Berkeley. Pierre Brocheux is Matre de Conference of History, Universit Denis Diderot-Paris VII.
