Democratic Transitions Sergio Bitar, Abraham F. Lowenthal, 2015-09-15 Thirteen former presidents and prime ministers discuss how they helped their countries end authoritarian rule and achieve democracy. National leaders who played key roles in transitions to democratic governance reveal how these were accomplished in Brazil, Chile, Ghana, Indonesia, Mexico, the Philippines, Poland, South Africa, and Spain. Commissioned by the International Institute for Democracy and Electoral Assistance (International IDEA), these interviews shed fascinating light on how repressive regimes were ended and democracy took hold. In probing conversations with Fernando Henrique Cardoso, Patricio Aylwin, Ricardo Lagos, John Kufuor, Jerry Rawlings, B. J. Habibie, Ernesto Zedillo, Fidel V. Ramos, Aleksander Kwasniewski, Tadeusz Mazowiecki, F. W. de Klerk, Thabo Mbeki, and Felipe González, editors Sergio Bitar and Abraham F. Lowenthal focused on each leader's principal challenges and goals as well as their strategies to end authoritarian rule and construct democratic governance. Context-setting introductions by country experts highlight each nation's unique experience as well as recurrent challenges all transitions faced. A chapter by Georgina Waylen analyzes the role of women leaders, often underestimated. A foreword by Tunisia's former president, Mohamed Moncef Marzouki, underlines the book's relevance in North Africa, West Asia, and beyond. The editors' conclusion distills lessons about how democratic transitions have been and can be carried out in a changing world, emphasizing the importance of political leadership. This unique book should be valuable for political leaders, civil society activists, journalists, scholars, and all who want to support democratic transitions.

The OSS and Ho Chi Minh Dixee Bartholomew-Feis, 2006-05-12 Some will be shocked to find out that the United States and Ho Chi Minh, our nemesis for much of the Vietnam War, were once allies. Indeed, during the last year of World War II, American spies in Indochina found themselves working closely with Ho Chi Minh and other anti-colonial factions—compelled by circumstances to fight together against the Japanese. Dixee Bartholomew-Feis reveals how this relationship emerged and operated and how it impacted Vietnam's struggle for independence. The men of General William Donovan's newly-formed Office of Strategic Services closely collaborated with communist groups in both Europe and Asia against the Axis enemies. In Vietnam, this meant that OSS officers worked with Ho Chi Minh and the Viet Minh, whose ultimate aim was to rid the region of all imperialist powers, not just the Japanese. Ho, for his part, did whatever he could to encourage the OSS's negative view of the French, who were desperate to regain their colony. Revealing details not previously known about their covert operations, Bartholomew-Feis chronicles the exploits of these allies as they developed their network of informants, sabotaged the Japanese occupation's infrastructure, conducted guerrilla operations, and searched for downed American fliers and Allied POWs. Although the OSS did not bring Ho Chi Minh to power, Bartholomew-Feis shows that its apparent support for the Viet Minh played a significant symbolic role in helping them fill the power vacuum left in the wake of Japan's surrender. Her study also hints that, had America continued to champion the anti-colonials and their quest for independence, rather than caving in to the French, we might have been spared our long and very lethal war in Vietnam. Based partly on interviews with surviving OSS agents who served in Vietnam, Bartholomew-Feis's engaging narrative and compelling insights speak to the yearnings of an oppressed people—and remind us that history does indeed make strange bedfellows.

Vietnam David G. Marr, 2013-04-15 Marr's previous book, *Vietnam 1945*, ends on 2 September when big crowds gathered in Hanoi and Saigon to celebrate Vietnamese independence. This book focuses on the next sixteen months, when Vietnam's future course was determined. It recreates in vivid detail what it was like to be there in these dramatic postcolonial moments as the Japanese, British and Americans faded from view, the DRV began to function and establish an army, the French maneuvered to restore colonialism, but the beginnings of the Cold War swept Vietnam into its orbit with the Chinese Red Army victories and Chinese arms on the border. As with his other books Marr pioneers the history of war

Maradona Diego Armando Maradona, 2006-07-01 The candid, revealing autobiography of soccer's greatest and most controversial star. "Sometimes I think that my whole life is on film, that my whole life is in print. But it's not like that. There are things which are only in my heart—that no one knows. At last I have decided to tell everything."—Diego Maradona A poor boy from a Buenos Aires shanty town, Diego Maradona became a genius with the soccer ball, kicking his way to the heights of South American, European, and world soccer, yet his struggles with the pressures of life inside and outside the game repeatedly threatened to tear him and his legend down. Hero or villain, one thing about Maradona is certain: He was the greatest soccer player of his generation—and perhaps of all-time. Never before has the legendary Maradona given us his extraordinary story in his own words—until now. From his poverty-stricken origins to his greatest glories on the field, Maradona recounts, with astonishing frankness and brilliant insight, the pivotal moments of his life—the pressures of being a child prodigy, the infamous semi-final game against England in the 1986 World Cup, an incredible turn-around and the dream-turned-sour at Napoli, and the shame and disgrace of his positive drug test at USA 1994. In this amazingly honest autobiography, we see inside the mind of one of the most talented, controversial, and complex sportsmen of our times—a man torn between the demands of corporate club bosses, the fans, the media, and his own tempestuous personal life. With a new epilogue exclusive to this paperback edition that brings Maradona's remarkable story up-to-date and more than eighty wonderful photographs, Maradona is a confessional, a revelation, an apology, and a celebration. 20 color and 63 black-and-white photographs

Nationalist in the Viet Nam Wars Công Luận Nguyễn, Nguyen Công Luan, 2012 This extraordinary memoir tells the story of one man's experience of the wars of Viet Nam from the time he was old enough to be aware of war in the 1940s until his departure for America 15 years after the collapse of South Viet Nam in 1975. Nguyen Cong Luan was, by his account, just a nobody. Born and raised in small villages near Ha Noi, he and his family knew war at the hands of the Japanese, the French, and the Viet Minh. Living with wars of conquest, colonialism, and revolution led him finally to move south and take up the cause of the Republic of Viet Nam, changing from a life of victimhood to that of a soldier. His stories of village life in the north are every bit as compelling as his stories of combat and the tragedies of war. I've done nothing important, Luan writes. Neither have I strived to make myself a hero. Yet this honest and impassioned account of life in Viet Nam from World War II through the early years of the unified Communist government is filled with the everyday heroism of the common people of his generation. Luan's portrayal of the French colonial occupation, of the corruption and brutality of the Communist system, of the systemic weakness and corruption of the South Vietnamese government, and his warts and all portrayal of the U.S. military and the government's handling of the war may disturb readers of various points of view. Most will agree that this memoir provides a unique and important perspective on life in Viet Nam during the years of conflict that brought so much suffering to Luan and his fellow Vietnamese.--Publisher's description.

Bipolar Orders Hyung Gu Lynn, 2009-11-02 North Korea and South Korea are never far from the news headlines - one for the alleged danger it poses to the world, the other for its apparent capitalist success story. In *Bipolar Orders*, Hyung Gu Lynn analyzes the processes driving both countries since the 1980s. North Korea has experienced severe economic deterioration and increasing international isolation, while South Korea has undergone democratization and witnessed the emergence of a vibrant consumer culture. Paradoxically, this growing gap in ideologies and material standards has led to improved relations between the two countries. Why has this counterintuitive development occurred? Is North Korea really a threat, and if so, for whom? This book provides a substantive, accessible, and timely examination of the complex and compelling histories of the two Koreas.

Shadows and Wind Robert Templar, 1999 For many people, Vietnam remains a war not a country. This text explores the country behind the myths and images, looking at Vietnam's literature, history, art and architecture, politics, religion and

food. The author shows the emerging popular culture and the Vietnamese at home and overseas.

Vietnam 2035 World Bank Group;Ministry of Planning and Investment of Vietnam,2016-11-07 Thirty years of Đổi mới (economic renovation) reforms have catapulted Vietnam from the ranks of the world's poorest countries to one of its great development success stories. Critical ingredients have been visionary leaders, a sense of shared societal purpose, and a focus on the future. Starting in the late 1980s, these elements were successfully fused with the embrace of markets and the global economy. Economic growth since then has been rapid, stable, and inclusive, translating into strong welfare gains for the vast majority of the population. But three decades of success from reforms raises expectations for the future, as aptly captured in the Vietnamese constitution, which sets the goal of "a prosperous people and a strong, democratic, equitable, and civilized country." There is a firm aspiration that by 2035, Vietnam will be a modern and industrialized nation moving toward becoming a prosperous, creative, equitable, and democratic society. The *Vietnam 2035* report, a joint undertaking of the Government of Vietnam and the World Bank Group, seeks to better comprehend the challenges and opportunities that lie ahead. It shows that the country's aspirations and the supporting policy and institutional agenda stand on three pillars: balancing economic prosperity with environmental sustainability; promoting equity and social inclusion to develop a harmonious middle-class society; and enhancing the capacity and accountability of the state to establish a rule of law state and a democratic society. *Vietnam 2035* further argues that the rapid growth needed to achieve the bold aspirations will be sustained only if it stands on faster productivity growth and reflects the costs of environmental degradation. Productivity growth, in turn, will benefit from measures to enhance the competitiveness of domestic enterprises, scale up the benefits of urban agglomeration, and build national technological and innovative capacity. Maintaining the record on equity and social inclusion will require lifting marginalized groups and delivering services to an aging and urbanizing middle-class society. And to fulfill the country's aspirations, the institutions of governance will need to become modern, transparent, and fully rooted in the rule of law.

The Great Wall of China Arthur Waldron,1990-07-27 This is the first full scholarly study of the Great Wall of China to appear in any language, and it challenges many deeply held ideas about Chinese history. Drawing both on primary sources and on the latest archaeology, the book first demonstrates that the standard account of the Great Wall is untrue and misleading and then presents a convincing new account. It begins by tracing the various walls and systems of frontier defences that existed in early Chinese history, and shows how the greatest of these achieved a mythical symbolic stature which long survived the Wall itself. A striking concluding chapter traces how the true history of the Wall was lost in the early twentieth century as it was gradually transformed into a Chinese national symbol explained through historical myth. The book is an important contribution to the history of China's defensive policy, and her ideological attitudes, and will be of interest both to students of Chinese history and of international relations in the pre-modern world.

Mourning Headband for Hue Nha Ca, 2014-09-04 "An intimate—and disturbing—account of war at its most brutal, told from the point of view of civilians trying to survive the maelstrom." —Publishers Weekly Vietnam, January, 1968. As the citizens of Hue are preparing to celebrate Tet, the start of the Lunar New Year, Nha Ca arrives in the city to attend her father's funeral. Without warning, war erupts all around them, drastically changing or cutting short their lives. After a month of fighting, their beautiful city lies in ruins and thousands of people are dead. *Mourning Headband for Hue* tells the story of what happened during the fierce North Vietnamese offensive and is an unvarnished and riveting account of war as experienced by ordinary people caught up in the violence. "A visceral reminder of war's intimate slaughter." —Kirkus Reviews "[A] searing eyewitness account . . . It makes for an intimate—and disturbing—account of war at its most brutal told from the point of view of civilians trying to survive the maelstrom." —VVA Veteran

A Death in November Ellen Joy Hammer, 1988 Centering on the events of 1963 in Vietnam that led to the assassinations of South Vietnamese President Ngo Dinh Diem and his brother Ngo Dinh Nhu, Ellen Hammer's riveting in-depth study demonstrates how this military coup transformed the Vietnam War into an American war. Having visited the embattled nation many times during the period and having interviewed key characters in the drama, she chronicles the series of misunderstandings between Vietnam and representatives of Western societies that preceded the events of 1963. Hammer's compelling account will provide readers with a fuller understanding of American involvement in Vietnam.

The Final Collapse [Illustrated Edition] General Cao Van Vien, 2016-03-28 General Cao Van Vien describes the final collapse of the South Vietnamese forces in 1975 following the military U.S. withdrawal. "General Cao Van Vien was the last chairman of the South Vietnamese Joint General Staff. For almost ten years he worked closely with other senior Vietnamese officers and civilian leaders and dealt with U.S. military and civilian representatives in Saigon. General Vien is therefore particularly well qualified to give an account of the final years from a South Vietnamese standpoint. "This is one of a series of monographs written by officers who held responsible positions in the Cambodian, Laotian, and South Vietnamese armed forces." Includes over 20 maps, tables and illustrations.

The Zen of Living and Dying Philip Kapleau, 1998-04-14 To live life fully and die serenely—surely we all share these goals, so inextricably entwined. Yet a spiritual dimension is too often lacking in the attitudes, circumstances, and rites of death in

modern society. Kapleau explores the subject of death and dying on a deeply personal level, interweaving the writings of Western religions with insights from his own Zen practice, and offers practical advice for the dying and their families.

The Occult Colin Wilson, 2015-05-17 The acclaimed author of *The Outsider* explores occult ideas, practices and figures from Kabbalah to Aleister Crowley in this “fascinating history of magic (The Washington Post). Colin Wilson is widely regarded as one of the world’s foremost experts on occultism. His classic historical study on the subject is an essential guide to the mind-expanding experiences and discoveries made by occultists through the centuries—from Heinrich Cornelius Agrippa to Giacomo Casanova, Helena Blavatsky, Grigori Rasputin, and many others. More than a chronicle of people and events, however, Wilson has produced a synthesis of the available material, presenting the occult in the light of reason—and reason in the light of the mystical and paranormal. The result is a wide-ranging survey of the subject that provides a comprehensive history of magic, an insightful exploration of our latent powers, and a revelatory journey of enlightenment. This most interesting, informative and thought-provoking book on the subject I have read. —Arthur Calder-Marshall, The Sunday Telegraph
